### Overview:

The International Conference on Cardiology & Heart Health (CardioSummit 2026) is a leading global platform for cardiology professionals, researchers, and healthcare innovators. Scheduled for October 22-24, 2026 in Orlando, USA, with a virtual participation option, CardioSummit 2026 brings together experts from around the world to share knowledge, discuss breakthroughs, and explore the future of cardiovascular care.

This conference provides an exciting opportunity to engage with the latest research, clinical practices, and technological advancements in cardiology. With keynote sessions, plenary talks, interactive workshops, and poster presentations, participants will gain insights into a wide array of topics, including heart disease prevention, interventional cardiology, heart failure management, cardiac imaging, and cutting-edge surgical techniques.

CardioSummit 2026 is more than just a conference—it is a hub for collaboration and networking, connecting clinicians, researchers, educators, and industry leaders. By combining in-person experiences in Orlando with a robust online platform, the event ensures global accessibility, enabling knowledge exchange across borders and disciplines.

### Call for Papers

Participants are invited to share their research and findings by submitting abstracts for consideration in the scientific sessions. A standardized template for submissions can be found on the "Abstract Submission" page of the conference website. All accepted abstracts will be featured in the extended abstract book, which will be accessible online and distributed at the conference.
